# RHYTHMIA

## INTERNATIONAL WORKSHOP

## Course objective

*The objective of the course is to share the best clinical practice in the treatment of complex arrhythmias with Ultra High Density Mapping.*

## Didactic format

- Live Cases Observations
- Cases Review
- Workflow discussion
- Best Practice Sharing

## Agenda

### Tuesday 12 December

- 9.00 **Welcome and introduction to the course**  
*Dr. F. Solimene, Dr. I. G. Bolao, Dr. A. De Simone*
- 9.15 **Rhythmia Mapping System: New diagnostic information to guide ablation**  
*Ing. A. Lo Sapio, Ing. F. Maddaluno*
- 9.45 **Introduction to Ablation Cases and Techniques**  
*Dr. I.G. Bolao, Ing. F. Maddaluno*
- 10.00 **Live Cases**  
**Epicardial VT (each case will be preceded by an introduction and followed by a de-briefing phase)**
- 13.30 *Light Lunch*
- 15.00 **Live Cases**  
**Epicardial VT (each case will be preceded by an introduction and followed by a de-briefing phase)**
- 18.30 **Work closure**

### Wednesday 13 December

- 9.00 **Introduction to Ablation Cases and Techniques**  
*Dr. F. Solimene, Ing. F. Maddaluno*
- 9.30 **Live Cases**  
**ReDo FA (each case will be preceded by an introduction and followed by a de-briefing phase)**
- 11.30 **Live Cases**  
**Macro-reentry Atrial (each case will be preceded by an introduction and followed by a de-briefing phase)**
- 14.00 **Final discussion**
- 14.30 **Work closure**
